

MCGILL FAMILY MEDICINE RESEARCH SEMINARS

“KEY INGREDIENTS FOR EFFECTIVE PATIENT PARTNERSHIP IN HEALTH CARE IMPROVEMENT”

Dr. Antoine Boivin

Antoine Boivin, MD PhD, is assistant professor at the department of family medicine, Université de Montréal. He holds a CIHR clinician-scientist career award. His research program focuses on patient and public partnership in healthcare. This presentation seeks to describe some key ingredients for effective patient partnership in healthcare, derived from randomized trial evidence. It discusses practical implications for the development of a partnership support infrastructure.

Thursday April 16, 2015
From 12:00-1:30 p.m.
Department of Family Medicine
5858 ch. de la Côte-des-Neiges, 3rd floor, suite 300
