
Community Engagement When the Community is Hard to Define

Allen J. Dietrich, MD

Dartmouth Medical School, Community and Family Medicine
McGill University, Department of Family Medicine

March 7, 2008

Community participatory research

- Defining the community
- Project examples
- Thoughts

**NORTH
AMERICAN
PRIMARY CARE
RESEARCH
GROUP**

**Responsible Research with Communities:
Participatory Research in Primary Care**

“Community--

Any group of individuals
sharing a common interest”

-
- Political and Cultural Factors in Achieving Continuity with a Primary Care Provider at an Indian Health Service Hospital.
 - Dietrich AJ, Olson AL. *Public Health Reports*, 1981;96(5):398-403.

The Cancer Prevention in Community Practice Project

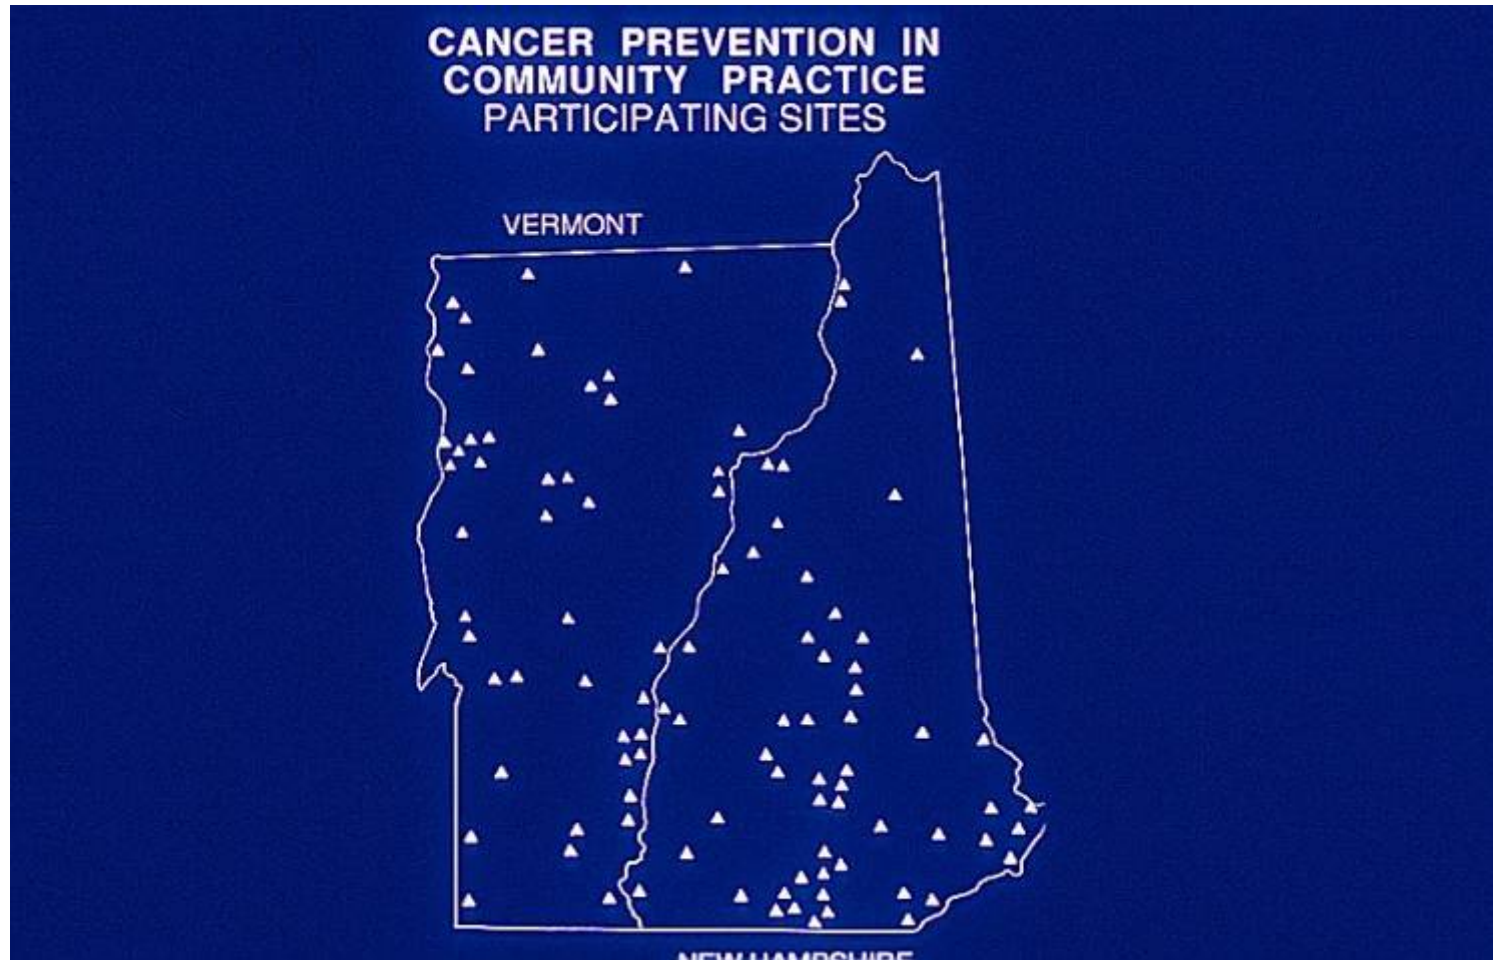

- NCI funded RCT
- Cancer screening
- CME vs. office system vs. control
- Paper flow sheet, staff help, routines
- 98 community practices

Example 2:

Rural Primary Care Practices as the Community

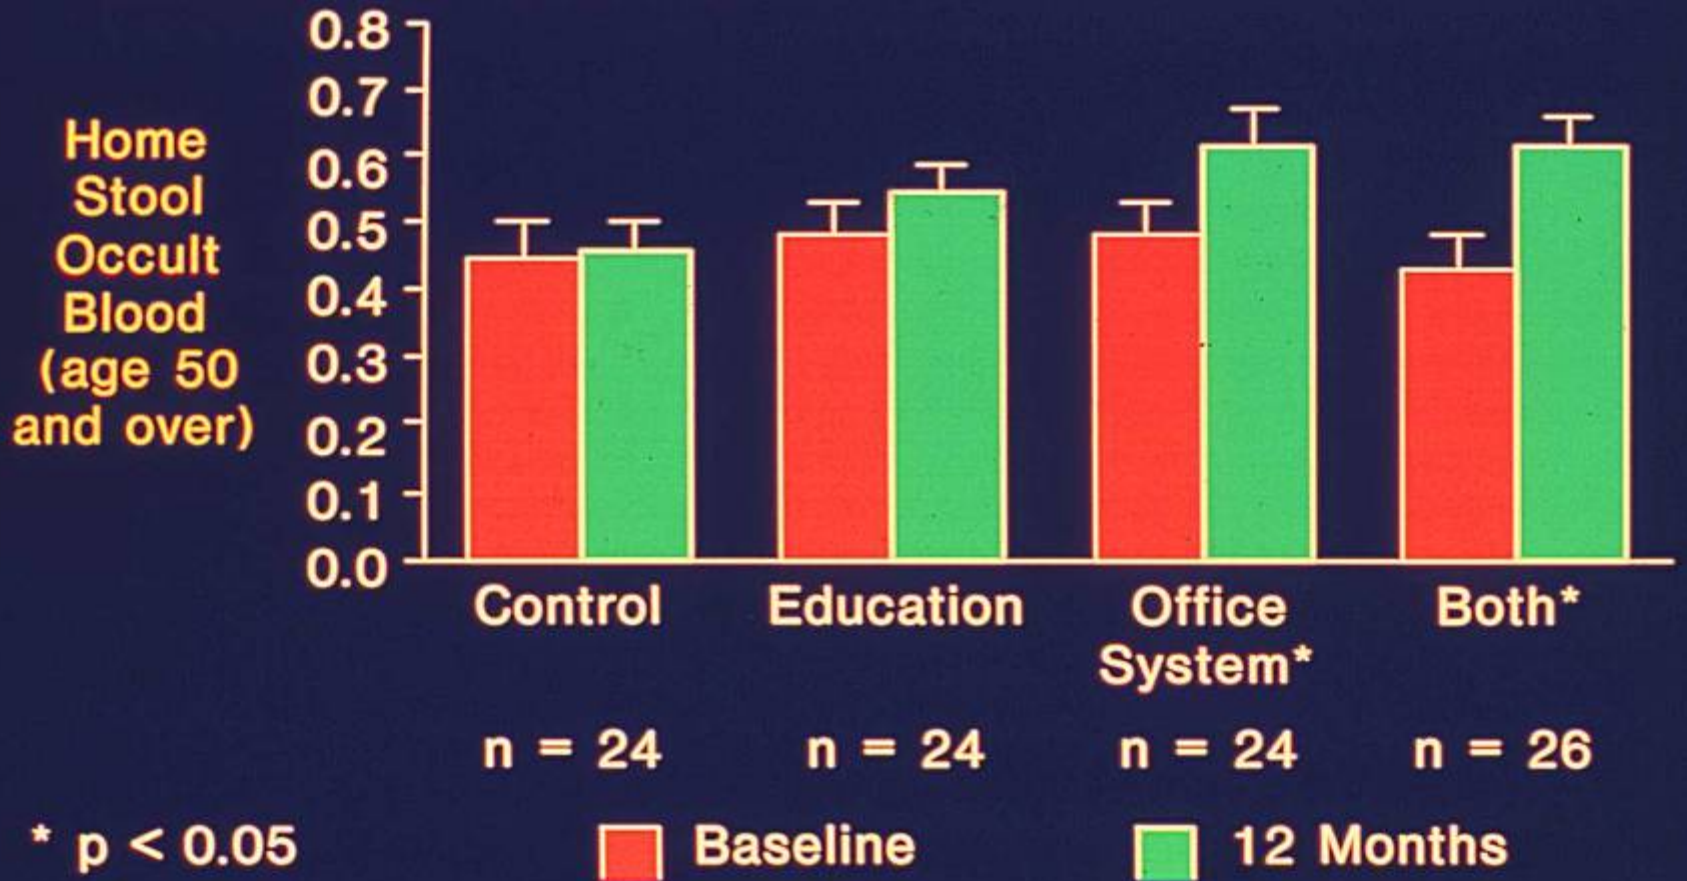

Dartmouth COOP and Friends

An Office System

Routines, responsibilities and tools
to accomplish a task.

PROPORTION OF PATIENTS WHO REPORT RECEIVING SERVICE DURING THE PRIOR YEAR BY PHYSICIAN STUDY GROUP

Results

- Office system improved 6 of 8 services
- Most services improved by 25-33%
- Oversight, not ignorance
- Office system, facilitation
- Office as community

Examples 3 and 4:

Urban Health Centers

CHC CCP

- 60 Community Health Centers in NYC
- Clinical Directors Network
- Office system

CHILDRENS HEALTH

CUIDADO DE SALUD PARA NIÑOS

عيادة الأطفال

兒童健康

ПЕДИАТРИЧЕСКОЕ ОТДЕЛЕНИЕ

Results

- Overall, no change
- Leadership stability an issue
- Office communities
- We over-reached!

NYC Prevention Care Manager Project

- CDN, CHCs
- Women, 50-69 years of age
- Overdue for screening
 - Breast
 - Cervix
 - Colon
- Brief culturally tailored telephone support (PCM)

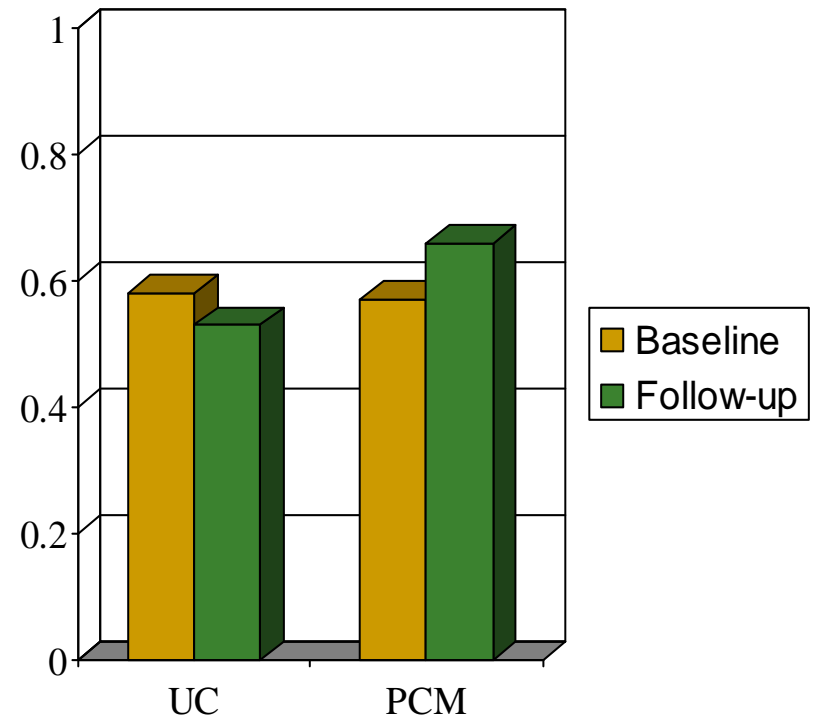

Proportion Up-to-date by Test (n=1406)

Mammogram

Pap

Proportion Up-to-date by Test

(n=1406)

HFOBT

Any CRC

New Steps PCM

- NCI dissemination supplement in Medicaid Managed Care
- New RCT

Example 5:

Health Care Organizations

- Large groups
- Insurance plans
- Others with QI support

RESPECT-Depression Project

**Re-
Engineering
Systems for the
Primary
Care
Treatment of Depression**

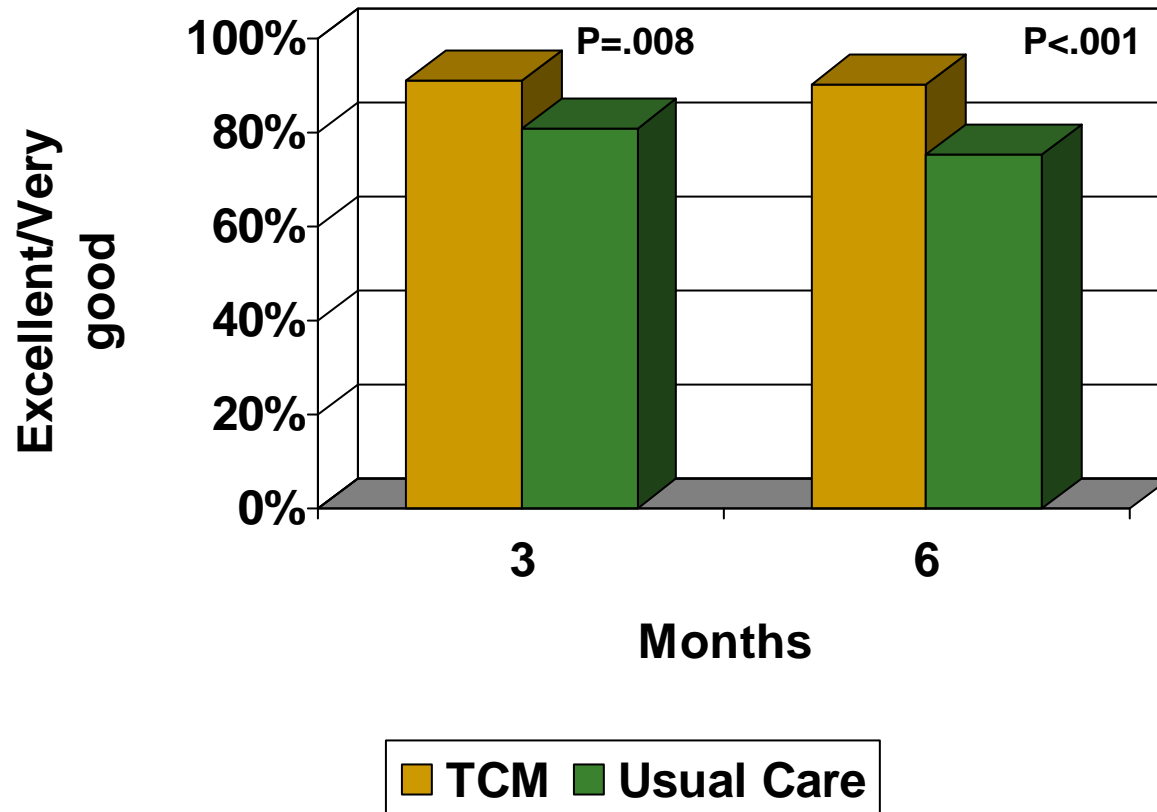

Phase Two

- Design: RCT
- Setting: 60 practices
- Subjects: Adults with MDD/dysthymia
- Intervention:
 - Turn key TCM (process of care)
 - QI/office system supported by parent organization
 - (process of change)

Depression Response

Quality Of Depression Care

Example 6:

The US Military

Re-engineering Systems for Primary Care Treatment of Depression and PTSD

Post-Deployment Background

The NEW ENGLAND JOURNAL of MEDICINE

ESTABLISHED IN 1812

JULY 1, 2004

VOL. 351 NO. 1

Combat Duty in Iraq and Afghanistan, Mental Health Problems, and Barriers to Care

Charles W. Hoge, M.D., Carl A. Castro, Ph.D., Stephen C. Messer, Ph.D., Dennis McGurk, Ph.D.,
Dave I. Cotting, Ph.D., and Robert L. Koffman, M.D., M.P.H.

Mental Health Conditions Are Common

Depression.....15%

Anxiety.....18%

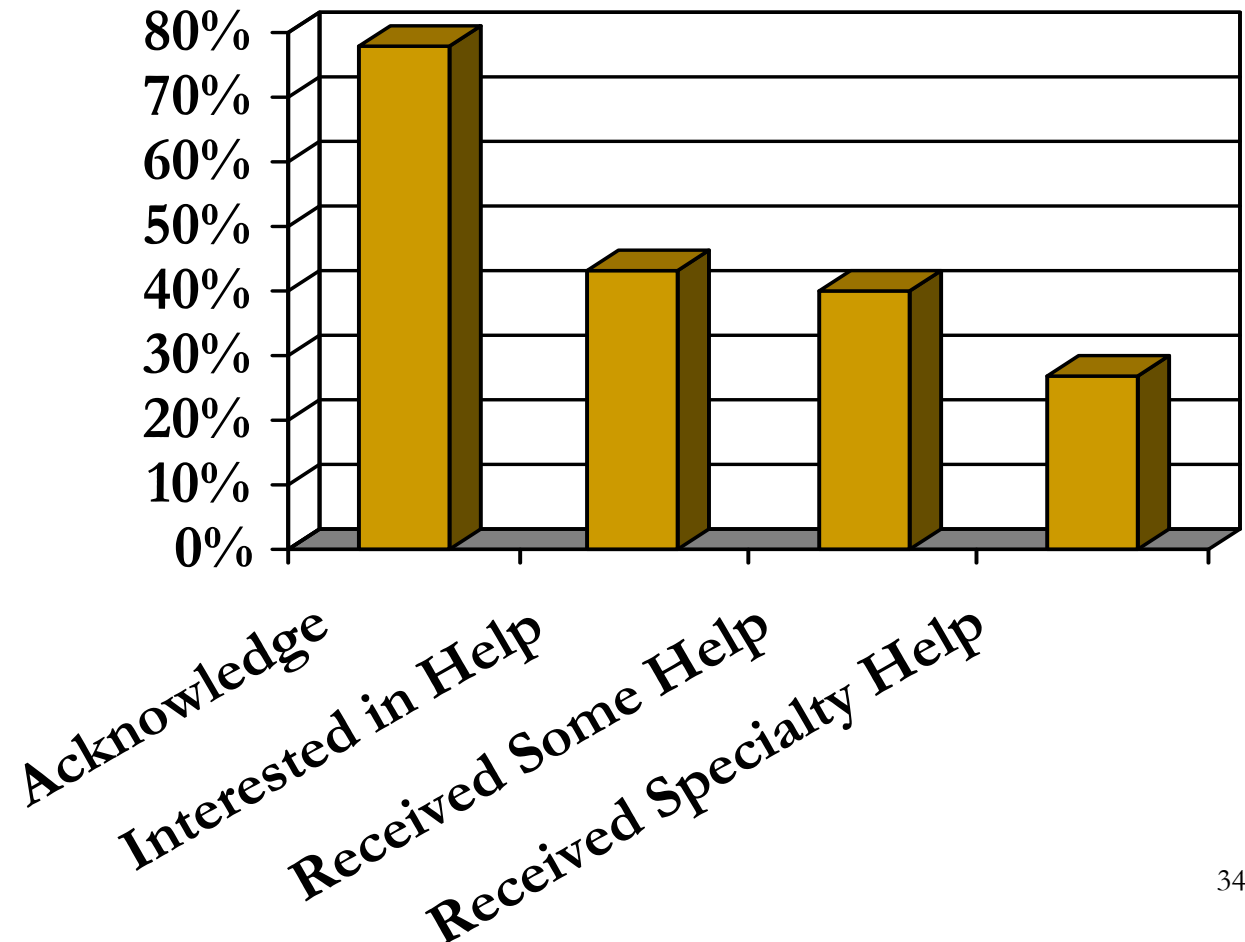

PTSD.....18%

Any of these....28%

Post-Deployment

Gap between need and service

- Of those 20% of soldiers screening positive for a moderate to severe MH disorder:

Barriers to Mental Health Help

- Stigma
- Concern about effects on career
- Difficulty scheduling
- Do not trust or believe in mental health professionals

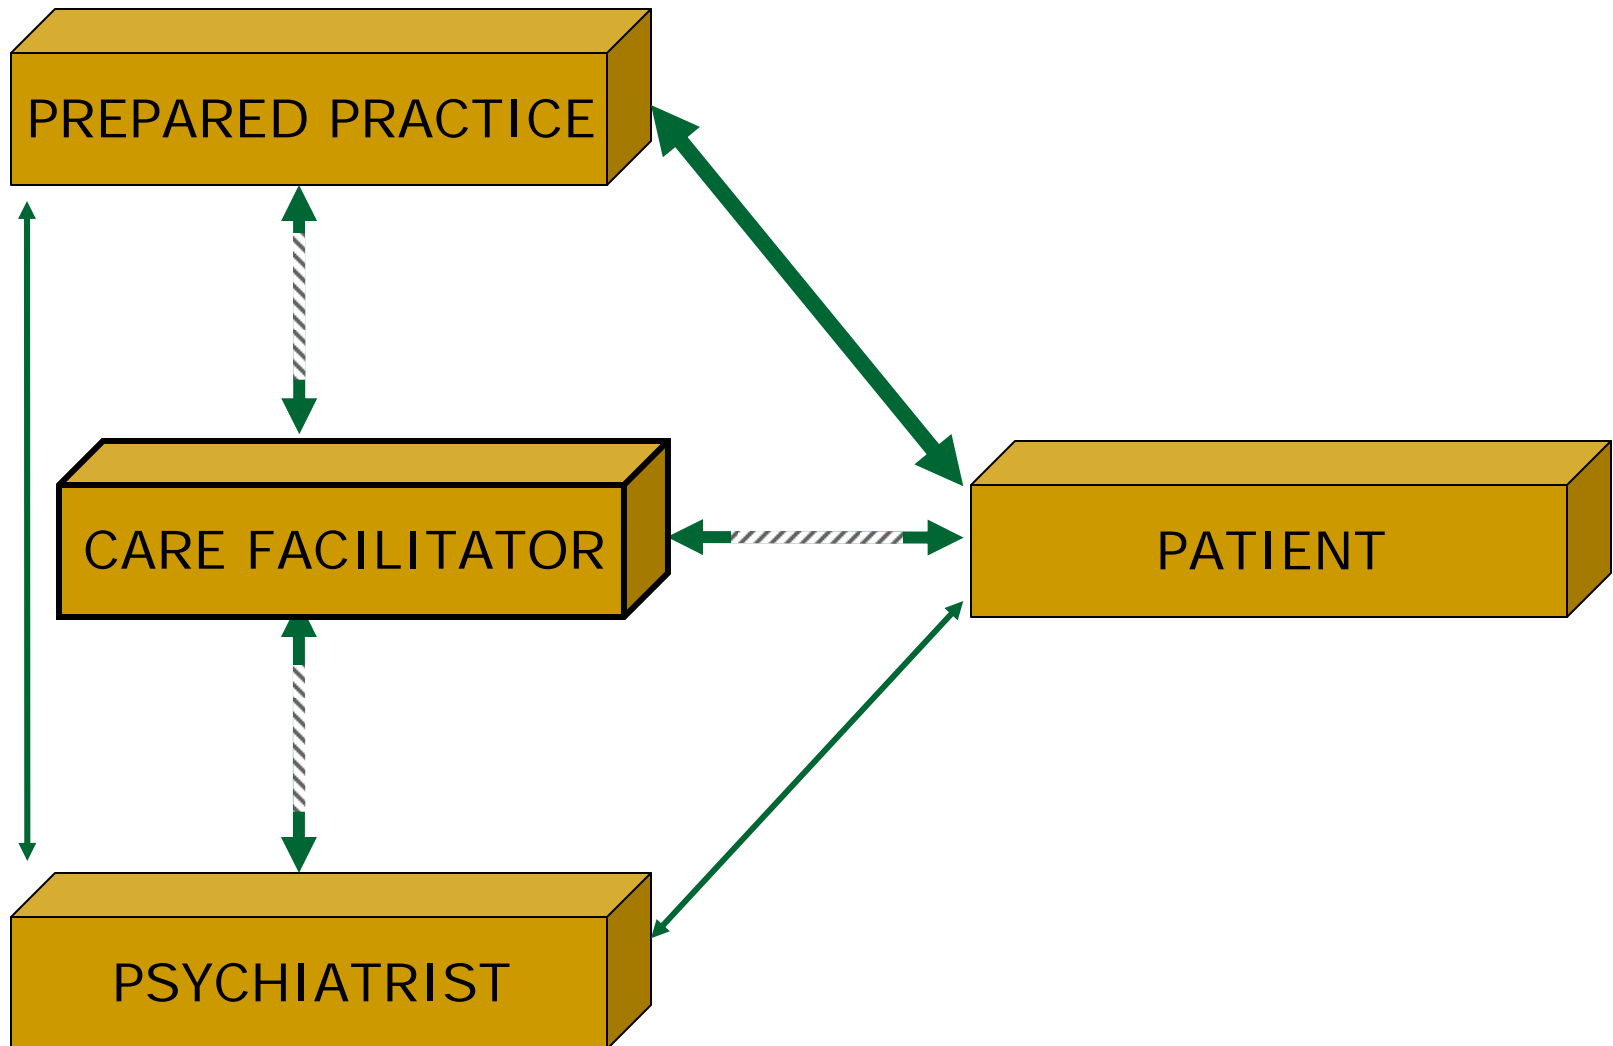

Challenges of Primary Care Treatment

- Patients not recognized / diagnosed
- Patients do not continue treatment
- Management contact too infrequent
- Clinicians do not adjust treatment to achieve remission

Aims

- To routinely screen for depression and PTSD for all sick call visits
- To begin treatment in primary care for those who need and accept it
- To augment treatment through telephone support and behavioral health specialist oversight

Three Component Model (3CM)

Overview of 3CM Care Process

- Screening as a routine
- Assessing screen positives
- For those with a potential diagnosis
 - Assess suicide risk
 - Relevant history
 - Share diagnosis with soldier
- Role of families
- Use new resources
 - Tools
 - Care facilitation
 - Informal psychiatric advice

RESPECT-Mil

Routine Office Visit Screening Form

Over the LAST 2 WEEKS, have you been bothered by

Feeling down, depressed, or hopeless.....Yes No

Little interest or pleasure in doing things.....Yes No

PHQ9 Symptom Checklist

1. Over the <u>last two weeks</u> have you been bothered by the following problems?	Not at all 0	Several days 1	More than half the days 2	Nearly every day 3
a. Little interest or pleasure in doing things	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b. Feeling down, depressed, or hopeless	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Trouble falling or staying asleep, or sleeping too much	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Feeling tired or having little energy	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Poor appetite or overeating	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f. Feeling bad about yourself, or that you are a failure . . .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g. Trouble concentrating on things, such as reading . . .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
h. Moving or speaking so slowly . . .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
i. Thoughts that you would be better off dead . . .	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. ... how <u>difficult</u> have these problems made it for you to do your work, take care of things at home, or get along with other people?	Subtotals:			
	TOTAL:			
Not difficult at all	Somewhat Difficult	Very Difficult	Extremely Difficult	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Experience and Challenges

- Practice as community
- Health care organization as community
- PBRN/Health care organization community
- Military post support group as community

Thoughts

- informal vs formal principles
- “side” communities
- leaving something behind
