Participatory Research: A New Research Paradigm?

March 12, 2009 Workshop

## Small Group Session II: Implementing Participatory Research

### Exercise 1

Did your research question originate from you or a partner?

Me _____ Partner(s) _____

How will you engage in collaborative research design? (i.e., allow for input from ALL partners into the refinement of the research questions and the means of answering them)

## Exercise 2

How will you engage in joint interpretation of the results? (e.g., results meetings, methodological processes, etc.)

## Exercise 3

How can all partners engage in joint dissemination of results? (i.e., both **within** the stakeholder groups/organisations, and to **other** key stakeholders and audiences, and scholarly publication)
